-TALL BLUE BOXES-

To all residents serviced by Quinte Waste Solutions, this is a reminder that Tall Blue Boxes are for Plastic and Metal Containers only. It has always been the policy of Quinte Waste Solutions that no other materials would be accepted in these boxes.

Due to a work place injury, this policy is being enforced. A tall blue box that has materials other than plastic and metal will not be accepted. If you wish to exchange your tall blue box for a standard sized blue box, free of charge, visit our website for your local exchange station.

Please have your recycling out by 7 am on your designated recycling day. We apologize for any inconvenience.

For more information regarding our Blue Box Program, including how to properly sort your recycling, please visit our website at www.quinterecycling.org.

Quinte Waste Solutions (QWS) is the municipally operated organization responsible for blue box recycling and hazardous and electronic waste diversion programs throughout Centre and South Hastings County and Prince Edward County. We have been working with our nine member municipalities since 1990 to keep recyclable material, including hazardous waste, out of the landfill.
